

Order Reservation

Conditions

1. The staff will contact the customer at the start of production (approximately 3 months) before estimated delivery. When we are ready to begin production, we will confirm your order specifications and a 50% non-refundable deposit will then be required to start construction. The balance must also be paid after completion prior to shipping or pickup of the instrument.
2. The final purchase price is determined by the date when the order is placed. Changes or cancellation can be made at any time before production begins with no penalty fee. However, any changes must be requested formally in writing (with a signature) before production begins. Headjoints can be exchanged within six months after the delivery date for complete flute orders only.
3. A case, case cover, cleaning rod, flute swab, and cleaning cloth are included. Three COA annual checkups (including UPS 2nd DAY return shipping) are also included. Must use within 3 years.
